Experience

Feb 2024 - July 2024 (6 months)
Bluflares - Pitampura, Delhi
Django Developer

- Developed web applications using Django and improving user experience and functionality.
- Collaborated with cross-functional teams to deliver end-to-end solutions, including integrating third-party services and APIs.
- Implemented security measures, including authentication and authorization, to protect sensitive data.
- Used Git for version control and collaborated with the team through GitHub to manage codebases, track changes, and ensure seamless collaboration across projects.

November 2023 - Feb 2024 (3 months)
Bluflares - Pitampura, Delhi
Django Developer Intern

- Assisted in developing and maintaining website using Django to support front end functionalities.
- Designed and implemented database models with Django ORM to ensure efficient data storage and retrieval.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Identified and resolved bugs in the existing codebase, enhancing the stability and reliability of the application.

Projects

Spotify Clone
Developed a full-stack web application replicating core functionalities of Spotify. The application allows users to search, play, and manage songs, and browse music libraries.
Features
- User Authentication and Authorization
- Play/Pause music
- Artist Profile and Top Tracks
- Searching Music

Tech-Stack
Python | Django | MySQL | Java Script | CSS | HTML

Shoe-universe
Developed a fully functional e-commerce platform specializing in footwear, providing a seamless shopping experience with features like product search, shopping cart, and payment section.
Features
- User Authentication and Authorization
- Search and Filtering
- Shopping Cart and Checkout
- Order Management

Tech-Stack
Python | Django | MySQL | Java Script | CSS | HTML
